

Contrive InfoTech (P) Ltd.  
innovative e practices

# e - Captura

is an electronic data management system which  
Captures data from weighing scales and  
Process Systems and store in to  
Server

other In  
the computer /

## e - Captura Features

- Data Captures to a computer
- Elimination of Log Books
- Retrieval of Historical Data
- Avoid Data Integrity issue
- Online Reports
- Accurate Data
- Centralized Data Capturing and Single Printer for All Balances

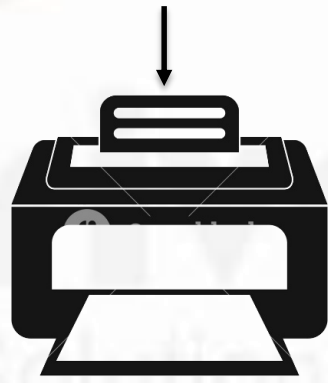

4 Balances / Instruments with One Computer

4 Balances

Single Printer for Multiple Balances

10 or 12 Inch Touch screen for every balances

Single network Printer for Multiple Balances / Instruments

LAN Cable

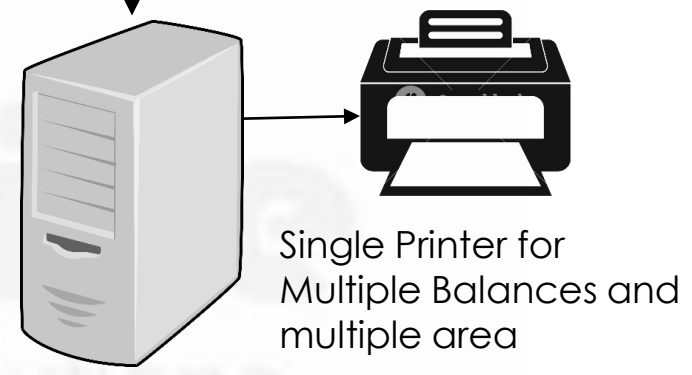

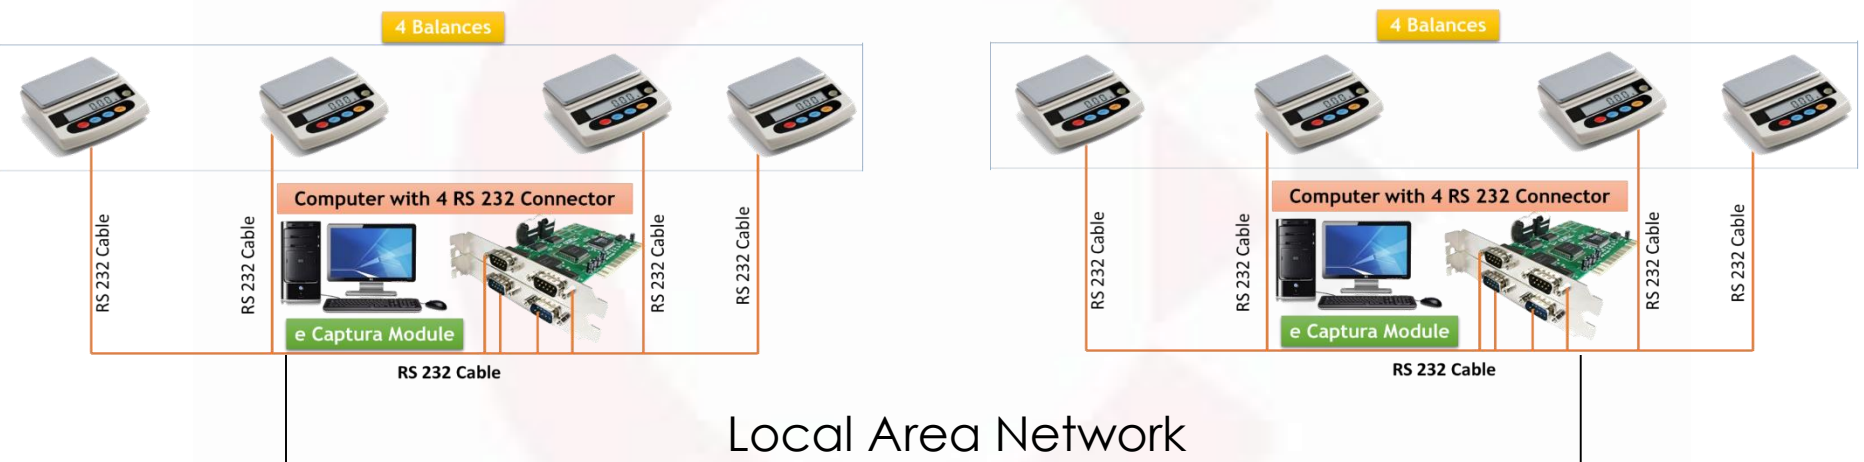

Level 2 Integration – Capture all the data to a central server

Local Area Network

- ✓ All the Data will be captured to this Central Server from multiple computer
- ✓ Printer can be centrally connected
- ✓ Data can be viewed from any system which are connected to same network

Print and Save    Clear Tare    Clear Weight

Single Printer for Multiple Balances

- ▶▶ **GxP Software's** : iGxP PRO is a bunch of innovative software's in one platform which helps customers to digitize GxP processes.
- ▶▶ **Computer System Validation Services**: We offer complete range of Validations and Qualifications services to the Pharmaceuticals companies.
- ▶▶ **IT Audit / Data Integrity and Data Security Assessment.**: A protocol based review and assessment of systems to identify the gaps with respect to IT controls and data security measures of GxP Systems. This assessment include the requirement of 21CFR Part II, GAMP5, common industrial practices and recent WL and 483's points related to GxP systems.
- ▶▶ **QMS Projects Implementation** : We associate with different solution providers and helps customers to implement the QMS solutions within defined time periods and as per the requirement. We helps customers to implement QMS systems like DMS, LMS, Track wise, SAP PM, SAP WMS etc.
- ▶▶ **Factory Automation**: Contrive is an Industrial Automation Solution Provider for the Life Sciences Industry. We are focused on providing Automation, Process , Data Acquisition & other automation solutions to the Life Science Industry.

## Computer System Validations (CSV)

- ▶▶ We partner with our clients, working with them to define the road to compliance within their environment. Our skilled team has the necessary training in FDA and other industry regulations and best practices. We follow internationally accepted GAMP 5 guidelines and its current interpretations for validation of computer systems applying Risk Based Approach and Life Cycle Management philosophy.
- ▶▶ Our team is well versed in US FDA 21 CFR Part 11, EU Annexure 11 and other major regulatory requirements, and can work with your organization to develop a structured methodology for achieving 21 CFR Part 11 Compliance while leveraging a risk based, scientific approach.
- ▶▶ Our major services in Computer System validation are as under:
  - ▶▶ Laboratory Computerized System Validation
  - ▶▶ Process Control (PLC/ SCADA / BMS) and Manufacturing System Validation
  - ▶▶ IT Infrastructure / Workstation/ Server Qualification
  - ▶▶ Data Centre Qualification
  - ▶▶ Network Qualification

## IT Audit / Data Integrity and Data Security Assessment

- ▶▶ A protocol based review and assessment of systems to identify the gaps with respect to IT controls and data security measures GxP Systems
- ▶▶ This assessment include the ERES requirement of 21CFR Part II, GAMP5, common industrial practices and recent WL and 483's points related to GxP systems.
- ▶▶ Protocol will verify the adequate controls of
  - ▶▶ Windows Policies
  - ▶▶ Privilege Matrix of the systems
  - ▶▶ Application policies / configurations
  - ▶▶ Data Security Lapses and Document availability
- ▶▶ Through the assessment , we identify gaps / inadequate controls (if any) which may possess risk to data security & controls.
- ▶▶ A Summary reports for all the GAPS identified.
- ▶▶ We can also Assist company to prepare CAPA / Long terms plan to mitigate the open GAPS.

## Our Other Services at a Glance

- ▶▶ Infrastructure Qualifications
- ▶▶ Network Qualifications.
- ▶▶ PLC / HVAC/ SCADA Qualifications and Validations.
- ▶▶ GxP IT Audit / Data Integrity / Data Security Assessment.
- ▶▶ Factory Automation Solutions & Power Solutions
- ▶▶ I.T. Integration Solutions
  - ▶▶ **(Infrastructure Projects, Data Centre and Network Solutions)**
    - ▶▶ Security, Firewall & UTM Solutions
    - ▶▶ GPON Solutions
    - ▶▶ Virtualization & Cloud Solution
    - ▶▶ Server & Storage Solutions
    - ▶▶ A/V & Office Automation Solutions
    - ▶▶ Microsoft Licensing
    - ▶▶ Surveillance Solutions
